

MAMTA SINGH SENGAR

SR ENGINEER II — QA MANUAL · GAMING APPLICATIONS

Noida, India • mamtasingh2326@gmail.com • +91 95199 60636
Immediate availability • [linkedin.com/in/mamta-sengar](https://www.linkedin.com/in/mamta-sengar)

SUMMARY

QA professional with **4.8 years of manual QA experience**, including **gaming applications** for online and mobile platforms. Built and executed test cases, analysed product requirements, and reported defects across payment, gaming, and retail domains. Strong analytical skills and a record of collaborating with cross-functional teams to improve testing processes.

CORE SKILLS

- **Manual Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **Gaming Applications:** Online and mobile platforms · game portals · payout logic
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **API & DB:** Rest Assured · Postman · SQL validation
- **CI/CD & DevOps:** Jenkins · GitHub Actions · Docker · Git
- **Automation:** Playwright · Selenium (Java) · Cucumber BDD
- **Methodologies:** Agile / Scrum

PROFESSIONAL EXPERIENCE

Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

Jun 2021 – Oct 2023

- Built and executed 500+ test cases for web/mobile modules; analysed product requirements to design coverage.
- Reported defects and collaborated with developers and QA leads; increased early defect detection by 25%.
- Collaborated with cross-functional teams to improve testing processes — coordinated scrum ceremonies, conducted demo calls, and mentored junior testers (onboarded 4).
- Maintained regression packs and executed functional, regression, sanity, smoke, and integration cycles.

Testing Engineer | Coracle Infotech India Pvt. Ltd.

Feb 2019 – Jun 2021

- Performed manual QA testing for gaming applications — functional, integration, system, regression, and UAT cycles across POS, Management, **Player**, and **Game** portals.
- Analysed product requirements and prepared/executed test cases; tracked defects in Jira and improved defect resolution SLA from 72 hrs → 48 hrs.
- Validated payment transactions (Credit Card, PayPal, external gift cards) and MPOS flows; analysed middleware logs to reduce payment failures by 20%.

CAREER BREAK & UPSKILLING

Career Break & Upskilling

Oct 2023 – Present

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.

- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.
- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

PROJECTS & DOMAIN HIGHLIGHTS

- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals; validated transaction flows and game payout logic.
- Local Test Case Generator (Jira-based): auto-generated structured test cases from Jira descriptions; reduced manual test design time by 50%.
- MS Dynamics 365 FO: tested Retail & Commerce payment connector and MPOS integrations.
- Education ERP: full lifecycle testing for student, faculty, and staff modules.

EDUCATION & CERTIFICATIONS

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
