Performed manual testing of enterprise applications including test case execution, bug reporting, and regression testing. Strong QA fundamentals with experience across payment, gaming, retail, and education domains.

CORE SKILLS

- **Manual Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **Enterprise Applications:** Payment · Gaming · Retail · Education ERP
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **API & DB:** Postman · SQL validation
- **Automation:** Playwright · Selenium (Java) · Cucumber BDD
- **Methodologies:** Agile / Scrum

PROFESSIONAL EXPERIENCE

Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

Jun 2021 – Oct 2023

- Executed test cases for web/mobile enterprise modules; authored 500+ test cases and maintained regression packs.
- Reported bugs and tracked them in Jira; increased early defect detection by 25%.
- Performed regression testing across releases, cutting release verification time from 3 days → 1 day.

Testing Engineer | Coracle Infotech India Pvt. Ltd.

Feb 2019 – Jun 2021

- Executed test cases and performed regression testing for payment, gaming, and retail enterprise applications.
- Reported bugs and tracked defects in Jira; improved defect resolution SLA from 72 hrs → 48 hrs.
- Validated payment transactions and MPOS flows; analysed middleware logs to reduce payment failures by 20%.

CAREER BREAK & UPSKILLING

Career Break & Upskilling

Oct 2023 – Present

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.
- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.
- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

PROJECTS & DOMAIN HIGHLIGHTS

- Enterprise applications: full lifecycle testing for Education ERP — student, faculty, and staff modules.
- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals.
- MS Dynamics 365 FO: tested Retail & Commerce payment connector and MPOS integrations.

EDUCATION & CERTIFICATIONS

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
