

MAMTA SINGH SENGAR

SENIOR TEST ENGINEER — MANUAL TESTING · ENTERPRISE APPLICATIONS

Noida, India • mamtasingh2326@gmail.com • +91 95199 60636
Immediate availability • [linkedin.com/in/mamta-sengar](https://www.linkedin.com/in/mamta-sengar)

SUMMARY

Manual testing engineer with **4.8 years of experience** testing enterprise applications. Executed test cases, identified defects, and ensured product quality across payment, gaming, retail, and education domains. Proven ability to **work independently** — owned test planning, execution, and reporting for web/mobile modules as Senior QA.

CORE SKILLS

- **Manual Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **Enterprise Applications:** Payment · Gaming · Retail · Education ERP
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **API & DB:** Postman · SQL validation
- **Automation:** Playwright · Selenium (Java) · Cucumber BDD
- **Methodologies:** Agile / Scrum

PROFESSIONAL EXPERIENCE

Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

Jun 2021 – Oct 2023

- Worked independently — led test planning and execution for web/mobile enterprise modules.
- Executed test cases and identified defects; authored 500+ test cases and maintained regression packs.
- Ensured product quality — increased early defect detection by 25% and cut release verification time from 3 days → 1 day.
- Mentored junior testers (onboarded 4) and coordinated scrum ceremonies.

Testing Engineer | Coracle Infotech India Pvt. Ltd.

Feb 2019 – Jun 2021

- Executed test cases and identified defects across payment, gaming, and retail enterprise applications.
- Ensured product quality through functional, integration, system, regression, and UAT cycles.
- Tracked defects in Jira; improved defect resolution SLA from 72 hrs → 48 hrs.

CAREER BREAK & UPSKILLING

Career Break & Upskilling

Oct 2023 – Present

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.
- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.
- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

PROJECTS & DOMAIN HIGHLIGHTS

- Enterprise applications: full lifecycle testing for Education ERP — student, faculty, and staff modules.
- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals.
- MS Dynamics 365 FO: tested Retail & Commerce payment connector and MPOS integrations.

EDUCATION & CERTIFICATIONS

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
