

MAMTA SINGH SENGAR

SENIOR AUTOMATION ENGINEER — E2E TESTING & DEVOPS

Noida, India • mamtasingh2326@gmail.com • +91 95199 60636
Immediate availability • [linkedin.com/in/mamta-sengar](https://www.linkedin.com/in/mamta-sengar)

SUMMARY

Automation engineer with **2 years of automation experience** building **automation frameworks** and **end-to-end testing** solutions. Integrated automated suites into **DevOps pipelines** (Jenkins, GitHub Actions) for PR gating and nightly regression, cutting release verification time from 3 days → 1 day. Skilled in Playwright, Selenium BDD, Rest Assured, and Docker.

CORE SKILLS

- **Automation Frameworks:** Playwright · Selenium (Java) · Cucumber BDD · Rest Assured
- **E2E Testing:** UI automation · API automation · End-to-end flows
- **DevOps Pipelines:** Jenkins · GitHub Actions · Docker · Git
- **Manual Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **Performance:** JMeter
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **Methodologies:** Agile / Scrum

PROFESSIONAL EXPERIENCE

Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

Jun 2021 – Oct 2023

- Built automation frameworks using Selenium BDD (Cucumber) and Playwright for web/mobile applications.
- Developed end-to-end testing solutions — automated 200 test cases covering UI and API flows, reducing manual regression effort by 30%.
- Integrated automated suites into DevOps pipelines — Jenkins / GitHub Actions on PRs and nightly builds, cutting release verification time from 3 days → 1 day.
- Built API automation with Rest Assured and validated backend flows with SQL.
- Executed performance tests with JMeter; identified bottlenecks that improved response times by 15%.

Testing Engineer | Coracle Infotech India Pvt. Ltd.

Feb 2019 – Jun 2021

- Executed functional, integration, system, regression, and UAT cycles for payment, gaming, and retail domains.
- Prepared and executed test cases; tracked defects in Jira and improved defect resolution SLA from 72 hrs → 48 hrs.

CAREER BREAK & UPSKILLING

Career Break & Upskilling

Oct 2023 – Present

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.
- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.

- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

PROJECTS & DOMAIN HIGHLIGHTS

- Local Test Case Generator (Jira-based): auto-generated structured test cases from Jira descriptions.
- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals.
- MS Dynamics 365 FO: tested Retail & Commerce payment connector and MPOS integrations.

EDUCATION & CERTIFICATIONS

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
