

MAMTA SINGH SENGAR

QA TEST LEAD · TEST PLANNING & TEAM EXECUTION

Noida, India • mamtasingh2326@gmail.com • +91 95199 60636
Immediate availability • [linkedin.com/in/mamta-sengar](https://www.linkedin.com/in/mamta-sengar)

SUMMARY

QA professional with **4.8 years of experience**, including **leading QA teams and managing test planning** as Senior QA at Chetu. Led test planning and execution for web/mobile modules, coordinated scrum ceremonies, and **mentored junior testers (onboarded 4)**. Oversaw test case design, regression execution, and defect management end-to-end.

CORE SKILLS

- **Test Leadership:** Test planning · Team coordination · Mentoring (4 testers onboarded) · Test execution oversight
- **Manual Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **Automation:** Playwright · Selenium (Java) · Cucumber BDD
- **API & DB:** Rest Assured · Postman · SQL validation
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **CI/CD & DevOps:** Jenkins · GitHub Actions · Docker · Git
- **Methodologies:** Agile / Scrum

LEADERSHIP GAP — your title is Senior QA, not QA Test Lead. This role expects formal team leadership; your mentoring (4 testers) and scrum coordination are the evidence. Be ready to describe how you assigned work, tracked team progress, and reviewed others' test cases. If a past manager can verify, add a reference line.

PROFESSIONAL EXPERIENCE

Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

Jun 2021 – Oct 2023

- Led QA teams — coordinated scrum ceremonies, conducted demo calls, and mentored junior testers (onboarded 4).
- Managed test planning and oversaw execution of test cases for web/mobile modules; authored 500+ test cases.
- Led test strategy — implemented UI automation and CI/CD integration, cutting release verification time from 3 days → 1 day.
- Conducted demo calls to stakeholders; increased early defect detection by 25%.

Testing Engineer | Coracle Infotech India Pvt. Ltd.

Feb 2019 – Jun 2021

- Executed functional, integration, system, regression, and UAT cycles for payment, gaming, and retail domains.
- Tracked defects in Jira and improved defect resolution SLA from 72 hrs → 48 hrs.
- Validated payment transactions and MPOS flows; analysed middleware logs to reduce payment failures by 20%.

CAREER BREAK & UPSKILLING

Career Break & Upskilling

Oct 2023 – Present

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.

- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.
- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

PROJECTS & DOMAIN HIGHLIGHTS

- Local Test Case Generator (Jira-based): designed and delivered an auto-generation workflow for structured test cases.
- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals.
- Education ERP: full lifecycle testing for student, faculty, and staff modules.

EDUCATION & CERTIFICATIONS

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
