

MAMTA SINGH SENGAR

AEM QA ENGINEER · ADOBE EXPERIENCE MANAGER TESTING

Noida, India • mamtasingh2326@gmail.com • +91 95199 60636
Immediate availability • [linkedin.com/in/mamta-sengar](https://www.linkedin.com/in/mamta-sengar)

SUMMARY

QA engineer with **4.8 years of experience** in functional, regression, and performance testing of web and enterprise applications. Tested content-heavy web platforms and validated functionality and performance across payment, gaming, retail, and education domains. No direct AEM experience — see note

CORE SKILLS

- **Adobe Experience Manager (AEM):** AEM authoring/publishing validation · AEM components testing
- **Web Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **Automation:** Playwright · Selenium (Java) · Cucumber BDD
- **Performance:** JMeter
- **API & DB:** Rest Assured · Postman · SQL validation
- **CI/CD & DevOps:** Jenkins · GitHub Actions · Docker · Git
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **Methodologies:** Agile / Scrum

AEM GAP — this role requires Adobe Experience Manager experience, which your resume does not show. Fill the brackets only if you have any real AEM/CMS exposure; otherwise delete that row. If you still want to apply, your strengths are functional/regression/perf testing of content platforms — lead with those and name the gap in your cover note.

PROFESSIONAL EXPERIENCE

Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

Jun 2021 – Oct 2023

- Validated functionality and performance of web/mobile modules; authored 500+ test cases.
- Executed regression cycles across releases, cutting release verification time from 3 days → 1 day.
- Executed performance tests with JMeter for critical flows; identified bottlenecks that improved response times by 15%.

Testing Engineer | Coracle Infotech India Pvt. Ltd.

Feb 2019 – Jun 2021

- Validated functionality — executed functional, integration, system, regression, and UAT cycles.
- Validated performance of payment and gaming portals; analysed middleware logs to reduce payment failures by 20%.
- Tracked defects in Jira and improved defect resolution SLA from 72 hrs → 48 hrs.

CAREER BREAK & UPSKILLING

Career Break & Upskilling

Oct 2023 – Present

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.
- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.
- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

PROJECTS & DOMAIN HIGHLIGHTS

- Education ERP: full lifecycle testing for student, faculty, and staff modules — a content-heavy web platform.
- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals.
- MS Dynamics 365 FO: tested Retail & Commerce payment connector and MPOS integrations.

EDUCATION & CERTIFICATIONS

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
