

MAMTA SINGH SENGAR

AUTOMATION TEST ENGINEER · AUTOMATED TEST DESIGN & COVERAGE

Noida, India • mamtasingh2326@gmail.com • +91 95199 60636
Immediate availability • [linkedin.com/in/mamta-sengar](https://www.linkedin.com/in/mamta-sengar)

SUMMARY

Automation test engineer with **2 years of automation experience**. Designed and implemented **automated test cases** with Playwright, Selenium BDD, and Rest Assured, and **improved test coverage** from 100 manual scenarios to automated checks across UI and API layers. Integrated suites into CI/CD, cutting release verification time from 3 days → 1 day.

CORE SKILLS

- **Automated Test Design:** Playwright · Selenium (Java) · Cucumber BDD · Rest Assured
- **Test Coverage:** UI automation · API automation · Regression coverage
- **CI/CD & DevOps:** Jenkins · GitHub Actions · Docker · Git
- **Manual Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **Performance:** JMeter
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **Methodologies:** Agile / Scrum

PROFESSIONAL EXPERIENCE

Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

Jun 2021 – Oct 2023

- Designed and implemented automated test cases using Selenium BDD (Cucumber) and Playwright.
- Improved test coverage — automated 200 test cases, reducing manual regression effort by 30%.
- Expanded coverage to API layer with Rest Assured and SQL backend validation.
- Integrated automated suites into Jenkins / GitHub Actions, cutting release verification time from 3 days → 1 day.

Testing Engineer | Coracle Infotech India Pvt. Ltd.

Feb 2019 – Jun 2021

- Executed functional, integration, system, regression, and UAT cycles for payment, gaming, and retail domains.
- Tracked defects in Jira and improved defect resolution SLA from 72 hrs → 48 hrs.

CAREER BREAK & UPSKILLING

Career Break & Upskilling

Oct 2023 – Present

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.
- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.
- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

PROJECTS & DOMAIN HIGHLIGHTS

- Local Test Case Generator (Jira-based): auto-generated structured test cases from Jira descriptions.
- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals.
- Education ERP: full lifecycle testing for student, faculty, and staff modules.

EDUCATION & CERTIFICATIONS

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
