

# MAMTA SINGH SENGAR

QA ENGINEER — PLAYWRIGHT · AUTOMATION & REGRESSION SUITE STABILITY

Noida, India • [mamtasingh2326@gmail.com](mailto:mamtasingh2326@gmail.com) • +91 95199 60636  
Immediate availability • [linkedin.com/in/mamta-sengar](https://www.linkedin.com/in/mamta-sengar)

## SUMMARY

---

QA engineer with **4.8 years of experience**, **2+ years hands-on with Playwright** as my primary automation tool. Built and maintained Playwright web test suites, converted 100 manual scenarios to automated checks, and **ensured regression suite stability** by integrating them into CI/CD for PR gating and nightly regression.

## CORE SKILLS

---

- **Playwright:** Web test suites · E2E automation · CI/CD integration
- **Regression Suite Stability:** PR gating · Nightly regression · Flakiness reduction
- **Automation:** Selenium (Java) · Cucumber BDD · Rest Assured
- **Manual Testing:** Functional · Regression · Sanity · Smoke · Integration · UAT
- **CI/CD & DevOps:** Jenkins · GitHub Actions · Docker · Git
- **Test Mgmt:** Jira · Local Test Case Generator (Jira workflow)
- **Methodologies:** Agile / Scrum

## PROFESSIONAL EXPERIENCE

---

### Software Test Engineer / Senior QA | Chetu India Pvt. Ltd.

*Jun 2021 – Oct 2023*

- Used Playwright for automation testing — implemented UI automation alongside Selenium BDD (Cucumber).
- Ensured regression suite stability — automated 200 test cases and integrated suites into Jenkins / GitHub Actions, cutting release verification time from 3 days → 1 day.
- Built API automation with Rest Assured and validated backend flows with SQL.

### Testing Engineer | Coracle Infotech India Pvt. Ltd.

*Feb 2019 – Jun 2021*

- Executed functional, integration, system, regression, and UAT cycles for payment, gaming, and retail domains.
- Tracked defects in Jira and improved defect resolution SLA from 72 hrs → 48 hrs.

## CAREER BREAK & UPSKILLING

---

### Career Break & Upskilling

*Oct 2023 – Present*

- Playwright: built automated web test suites; converted 100 manual scenarios to automated checks.
- CI/CD: integrated test execution into Jenkins and GitHub Actions for PR gating and nightly regression.
- Local Test Case Generator (Jira): designed a workflow to auto-generate structured test cases from Jira tickets, reducing test design time by 50%.
- AI Prompting for QA: created prompts/workflows to generate test ideas and edge cases, accelerating test design by 40%.

## PROJECTS & DOMAIN HIGHLIGHTS

---

- Playwright automation: converted 100 manual scenarios to automated checks, integrated into CI/CD.
- Local Test Case Generator (Jira-based): auto-generated structured test cases from Jira descriptions.
- Payment & Gaming: end-to-end testing across POS, Management, Player, and Game portals.

## EDUCATION & CERTIFICATIONS

---

- **M.Tech:** GGSIPU — 2012
- **B.Tech:** UPTU — 2009
- **Claude 101 Certified:** AI-assisted QA workflows
